SUBJECT INDEX

Acetonitrile
Gas-phase bimolecular chemistry of the $^{\cdot-}$CHNC and $^{\cdot-}$CHCN radical anions 85
Analyzer focusing
Ion transmission studies of multiple-sector isotope-ratio mass spectrometers 47
Anions
Negative ion fragmentations of deprotonated heterocycles. The isothiazole, thiazole, isoxazole, and oxazole ring systems 163
Appearance potential
Appearance potential and electron impact ionisation cross-section of C_{60} R1
Azimuthal variations
Ion-optical properties of electric fields with azimuthal variations 23

Binding energies
A determination of the stabilities of negative ion clusters in SO_2 and SO_2–O_2 mixtures 149
Buckminsterfullerene
Appearance potential and electron impact ionisation cross-section of C_{60} R1

Calibration procedure
A plasma desorption time-of-flight mass spectrometer with a single-stage ion mirror: improved resolution and calibration procedure 183
Carbon-60 fullerenes
Appearance potential and electron impact of ionisation cross-section of C_{60} R1
Cesium
Field ionization of cesium atoms diffusing out from an iridium foil, studied by time-of-flight mass spectrometry 31
Negative ions formed at grid surfaces in a flux of excited Cs atoms and ions 137
Charge stripping
Data acquisition and processing in charge stripping and double charge transfer experiments 61
Charge transfer
Data acquisition and processing in charge stripping and double charge transfer experiments 61
Clusters
Appearance potential and electron impact ionisation cross-section of C_{60} R1
CO
Dissociative ionisation of CO by 22.5–48.5 eV photons: kinetic energy measurements of fragment ions by coincidence time-of-flight mass spectrometry 123
Computer-controlled data acquisition
Data acquisition and processing in charge stripping and double charge transfer experiments 61

Dissociative ionisation
Dissociative ionisation of CO by 22.5–48.5 eV photons: kinetic energy measurements of fragment ions by coincidence time-of-flight mass spectrometry 123

Electron scavenging
Anion and cation chemistry of phosphoryl chloride as an electron scavenger in a fuel-rich, methane–oxygen flame 99
Electrostatic energy analyser
Ion-optical properties of electric fields with azimuthal variations 23
Electrostatic ion mirror
A plasma desorption time-of-flight mass spectrometer with a single-stage ion mirror: improved resolution and calibration procedure 183
Excited states
Negative ions formed at grid surfaces in a flux of excited Cs atoms and ions 137

Field ionization
Field ionization of cesium atoms diffusing out from an iridium foil, studied by time-of-flight mass spectrometry 31

Flame chemistry
Anion and cation chemistry of phosphoryl chloride as an electron scavenger in a fuel-rich, methane–oxygen flame 99
Fragment ions
Dissociative ionisation of CO by 22.5–48.5 eV photons: kinetic energy measurements of fragment ions by coincidence time-of-flight mass spectrometry 123
Fragmentation processes
Negative ion fragmentations of deprotonated heterocycles. The isothiazole, thiazole, isoxazole, and oxazole ring systems 163
FT ion cyclotron resonance
Gas-phase bimolecular chemistry of the $^{\cdot-}$CHNC and $^{\cdot-}$CHCN radical anions 85

Gas-phase acidities
Gas-phase bimolecular chemistry of the $^{\cdot-}$CHNC and $^{\cdot-}$CHCN radical anions 85
Geometric aberrations
Ion-optical properties of electric fields with azimuthal variations 23

Heterocycles
Negative ion fragmentations of deprotonated heterocycles. The isothiazole, thiazole, isoxazole, and oxazole ring systems 163

Integrated circuits
Liquid metal ion sources and their applications 1
Ion energy analysis
Negative ions formed at grid surfaces in a flux of excited Cs atoms and ions 137
Ionisation cross-section
Appearance potential and electron impact ionisation cross-section of C_{60} R1
Ion microscopy
Liquid metal ion sources and their applications 1
Ion-optical properties
Ion-optical properties of electric fields with azimuthal variations 23
Ion structures
Gas-phase bimolecular chemistry of the $^{\cdot-}$CHNC and $^{\cdot-}$CHCN radical anions 85
Ion transmission efficiency
Ion transmission studies of multiple-sector isotope-ratio mass spectrometers 47
Isotope-ratio mass spectrometers
Ion transmission studies of multiple-sector isotope-ratio mass spectrometers 47
Isotope ratios
Negative thermal ionization mass spectrometry of main group elements. Part 2. 6th group: sulfur, selenium and tellurium 209

Kinetic energy loss
Data acquisition and processing in charge stripping and double charge transfer experiments 61
Kinetic energy release
Dissociative ionisation of CO by 22.5–48.5 eV photons: kinetic energy measurements of fragment ions by coincidence time-of-flight mass spectrometry 123

Liquid metal ion sources
Liquid metal ion sources and their applications 1

Mass resolution
A plasma desorption time-of-flight mass spectrometer with a single-stage ion mirror: improved resolution and calibration procedure 183
Materials analysis
Liquid metal ion sources and their applications 1
Mechanisms
Negative ion fragmentations of deprotonated heterocycles. The isothiazole, thiazole, isoxazole, and oxazole ring systems 163
Metastable decay
A plasma desorption time-of-flight mass spectrometer with a single-stage ion mirror: improved resolution and calibration procedure 183
Methyl isocyanide
Gas-phase bimolecular chemistry of the $^{\cdot-}$CHNC and $^{\cdot-}$CHCN radical anions 85

Negative ion clusters
A determination of the stabilities of negative ion clusters in SO_2 and SO_2–O_2 mixtures 149

Negative thermal ionization mass spectrometry
Negative thermal ionization mass spectrometry of main group elements. Part 2. 6th group: sulfur, selenium and tellurium 209

Phosphoryl chloride
Anion and cation chemistry of phosphoryl chloride as an electron scavenger in a fuel-rich, methane–oxygen flame 99
Plasma desorption mass spectrometry
A plasma desorption time-of-flight mass spectrometer with a single-stage ion mirror: improved resolution and calibration procedure 183

Quadrupole mass spectrometry
Negative ions formed at grid surfaces in a flux of excited Cs atoms and ions 137

Radical anions
Gas-phase bimolecular chemistry of the $^{\cdot-}$CHNC and $^{\cdot-}$CHCN radical anions 85

Selenium
Negative thermal ionization mass spectrometry of main group elements. Part 2. 6th group: sulfur, selenium and tellurium 209
SO_2
A determination of the stabilities of negative ion clusters in SO_2 and SO_2–O_2 mixtures 149
SO_2–O_2 mixtures
A determination of the stabilities of negative ion clusters in SO_2 and SO_2–O_2 mixtures 149
Sulfur
Negative thermal ionization mass spectrometry of main group elements. Part 2. 6th group: sulfur, selenium and tellurium 209
Surface ionization
Field ionization of cesium atoms diffusing out from an iridium foil, studied by time-of-flight mass spectrometry 31

Tellurium
Negative thermal ionization mass spectrometry of main group elements. Part 2. 6th group: sulfur, selenium and tellurium 209
Thermionic energy converter
Negative ions formed at grid surfaces in a flux of excited Cs atoms and ions 137
Time of flight
Dissociative ionisation of CO by 22.5–48.5 eV photons: kinetic energy measurements of fragment ions by coincidence time-of-flight mass spectrometry 123

V-filament ion source
Ion transmission studies of multiple-sector iostope-ratio mass spectrometers 47
